

People Friendly Government

(Government that Exist Solely for the Welfare of the People)

Is

MY PACT WITH THE GOOD PEOPLE OF OSUN STATE THROUGH MY SIX POINT INTEGRAL ACTION
PLAN

RAUF ADESOJI AREGBESOLA

My Pact with The People of Osun State, Land of The Living Spring.

On September 1886 at a camp between Okemesi and Igbajo, the armistice ending the twenty year civil war in Yoruba Land (KIRIJI), our Obas, Generals and Leaders pledged themselves to the pursuit of PEACE, PROGRESS and PROSPERITY among the children of Oduduwa. This grace we enjoyed till about 1962 when the Western House of Assembly was sacked and the Federalism which gave the Yoruba room to pursue the promise of KIRIJI was terminated in all but name. The end result is that today as we approach the 2007 general elections, peace, progress and prosperity can no longer be taken for granted amongst us. There is imminent fear of

- (1) Political disenfranchisement
- (2) Economic Stagnation
- (3) Socio- Psychological Insecurity

The above are the reasons I have decided to run for the Office of Governor in the heartland of the living spring-OSUN STATE

What I offer you therefore can be termed Government **Unusual**- a Government totally committed to unlocking the latent potentials in our people, a phenomenon unknown in Southwest Nigeria since the glorious days of Chief Obafemi Awolowo.

What obtains today is a ruling class tainted with greed, avarice, ineptitude and barefaced terrorism while our people continue to languish in hunger, insecurity, disease and squalor

My mission and ambition are to restore to the people, a state of peace, and opportunity for progress and room for the pursuit of prosperity in our time under a people friendly government

I give you Six-Point Integral Action Plan, to the intent that they constitute my articles of faith concerning which I want to be held accountable at any time during my stewardship

BANISH UNEMPLOYMENT (CREATE WORK & WEALTH)

No job loss, more jobs

Osun people are peaceful, dignified and hardworking people who desire and deserve gainful employment for their children and themselves. Rather than policies that will create employment and wealth for the people, the policies of the PDP government in place serve to enrich a few at the expense of the majority of our people

As part of our **GOVERNMENT UNUSUAL** programme, I Rauf Adesoji Aregbesola make a Pact with you the good people of Osun State, in the presence and by the grace of God Almighty that our government shall create immediate Employment for 20,000 people within our 100 days in Office

Appropriate nomenclature will enhance accountability and promote public access to the services of the ministry. A citizen with a complaint on blockage of drainage will find a Ministry for Roads and Drainages easier to identify with than Ministry of Works, a Ministry of Human Resources and Development will more appropriately communicate its services than a Ministry of Establishment

We Africans but especially people of Osun State are thrifty (a ki se oni nakuna) and hardworking (ati agbe atonise owo lo la imele si aid anile Yoruba) but we have been backward in looking forward

We have not been innovative enough, we have not invested in research and we have not developed the fruits of innovation and research. In other words we remain backward, poor unscientific and losers (eni igbehin) among the family of nations

It is a matter of concern that our leaders do not care or worry enough about these issues

I care and am deeply concerned. As your new Governor by God's grace through your votes, I rauf Aregbesola will do everything possible to:

ENHANCE COMMUNAL PEACE AND PROGRESS

Vision: *To restore the bond of trust between the Governor and the governed*

Over time, people have disconnected from government because those in authority have not shown enough concern about their welfare or actively engaged them in formulating policies that affect them

Our Government shall restore partnership between government and the people through:

SAGES COUNCILS (EGBE AGBA)

Osun State is blessed with a large pool of elderly folks who are invariably well educated, have enjoyed successful careers, travelled widely in the world, but are currently reduced to irrelevance in the society.

Our Government will support the formation of non partisan community based sages councils, capable of providing guidance in management, moral and ethical development in our society

Our Government will seek elders' guidance and advice as inputs to our policy formation and implementation. Government will support the senior citizens and help in their management of socio economic problems peculiar to the group (pensions, health, education)

In all the above and above all these I intend to run a people-friendly government, a government of the people, by the people FOR THE PEOPLE. A GOVERNMENT UNUSUAL in this land
